## CARGO CONTROL MONITOR MONITOR CONTROL CARGA

### DESCRIPTION

The **PT1540 Cargo Control Monitor** is designed for top and bottom loading applications on single and multicompart-ment tank trucks.

In the case of a possible overfill situation the output relay sends a signal to the terminal, control valve or pump to shutdown the loading operation.

In the case that proper grounding is not established a non-permisive signal, the loading process is interrupted immediately.

EN13922 and VOC directive 94/63/EC compliant.

### CHARACTERISTICS

- **Supports** up to 8 two-wire and 12 five-wire sensors.
- **Automatic recognition** and switching between optic and thermistor sensor technology.
- **Self-checking** ground verification incorporated in cable & plug assembly.
- **Six or eight channels** selectable.
- **Fail-Safe** redundant output relays.
- **LED status** indicator lights.
- **Real-time** clock.
- **Low temperature** useable in extreme environmental conditions as low as -40°C.
- **Event history** logged on internal memory.

### SPECIFICATIONS / ESPECIFICACIONES

<b>Input Power Supply / Tensión de Alimentación</b>	110-240 Vac 30 VA 50/60 Hz
<b>Output Relays / Relés de salida</b>	250v ac/dc 5AT
<b>Communication / Comunicación</b>	RS485/422Data port / Puerto RS 485/422
<b>Operation temperature / Temperatura de operación</b>	-40 °C to +70°C / -40 °C hasta +70°C
<b>Response time / Tiempo de respuesta</b>	< 400 ms
<b>Approvals / Aprobaciones</b>	ATEX
<b>Weight / Peso</b>	11 kg
<b>Dimensions / Dimensiones</b>	305 x 280 x 90
